Director of Student Support Services

Statement from Mr. Charles Langille, Principal, Kearsarge Regional High School

10/15/2025

Since beginning my career in public education in 2007, and transitioning into more formal administrative roles in 2015, I have been committed to collaborating with stakeholders on having a school environment where students and educators are supported, respected, and challenged to grow. At Kearsarge Regional High School, I remain focused on helping students feel loved and supported as they grow and succeed as well as supporting our educators in that mission.

In recent weeks, I have been made aware of concerns that have been shared publicly about my leadership. While some of these concerns are anonymous and others are not, and while some are specific and others more general, respectfully, I am unable to respond publicly to individual allegations due to legal and privacy constraints.

That said, I want to emphasize that I take any feedback about myself and our school climate seriously. I care deeply about the people I work with — past and present — and I reflect regularly on how I can improve as both a person and as a leader. While I regularly evaluate and critique my own leadership practices, I also believe in collaborative growth. I actively seek input and constructive critique from supervisors and colleagues to continue developing as an effective and responsive leader.

Like any school, KRHS is continually evolving. With change comes challenges, and I understand that not every transition has felt smooth or seamless. I remain committed to listening, learning, and building a culture grounded in mutual respect, open communication, and professional growth.

I look forward to continuing to work with our students, staff, and community to ensure that KRHS remains a place of opportunity, support, and academic excellence for all.
